Nordic Bugatti Register 2014

Bugatti cars in the Nordic Countries

A concise history of all Bugatti cars that have ever been in the Nordic countries or owned by Nordic citizens from 1912 to the present day. Several cars, still existing today, are now in the hands of owners all over the world. Thus the Register is relevant not only for Nordic citizens but also other enthusiasts globally.

The book covers some 200 Bugatti cars that have at one time or another been owned by one or several individuals in the following Nordic countries: Denmark, Finland, Norway and Sweden *), from the first owner, or ex-Bugatti Works, to the present day. It devotes a separate page to each car.

Each Register Page typically includes chassis and engine numbers, extracts of the original Bugatti Works data sheets, delivery dates, former owners and time of acquisition by the present owner. It also includes a brief history of what has happened to the car during its existence, illustrated with three or four period and contemporary photographs, in b/w or colour.

The information has been compiled by the Nordic Bugatti Identification Group consisting of Bo Söderberg (Registrar), Per Hörlén (Registration Secretary), Lennart Haajanen (Finland and Sweden), Ole Kristian Haugen (Norway), Per Henricsson (Sweden), Per-Olof Håkanson (Sweden), and Frank Studstrup (Denmark).

*) It has been established with a fair degree of certainty that there has been no Bugatti car in the other Nordic countries, i.e. Iceland, the autonomous territories of Faroese and Greenland.
